

# Pelagics Reductum

© Alan Stuart July 2015

A photograph of a seabird, likely a booby, in flight over a blue ocean. The bird is white with dark wings and a long, hooked yellow beak. It is shown in profile, flying towards the left. The background is a blurred blue sea under a clear sky.

Seabirds in flight.  
Lord, what a sight!  
It's inspiring.  
Seabirds flying.
